Expectations:

- Equitation skills in performing smooth elegant maneuvers and transitions score higher. Understanding what the pattern calls for and planning arena space will enhance the performance. There should be a definite distinction in stride length between the jog and extended jog
- Clearly, the goal is a perfect flying lead change, however, this allows for athletes to work into this maneuver. Remember, perfect means; equitation, hands, change (no steps in an interrupted, few steps in a simple, no disunited steps in a flying)
- This is an equitation class. Body position of athlete is scored; behavior of the equine is considered the direct result of the athlete's horsemanship skills.
