

Arena
Ardell

Setup
Driving Large

Note: Half and center lines are recommended for setup.

Equipment

- 2) 12' ground poles
- 12) 18" tall cones

Center this cone between outside cone lines.

For carts with tire width greater than 2". Measure tire width and add 4". Adjust outside pole so the distance between poles is this new dimension.

Use right edge of last cones for start point for distance out and center this cone like rear center cone.
